Stainless Steel Ornamental Rectangular Tube

Stainless Steel Ornamental Rectangular Tube provides an outstanding combination of strength, durability, and corrosion resistant properties. The chromium content in stainless rectangular tube (minimum 10.5% by mass) gives it natural corrosion resistance that can withstand chemicals, fresh water, salt water, and more, making it ideal for outdoor installations and other harsh environments where carbon steel rectangular tubing would quickly fail.

Stainless Steel Ornamental Rectangular Tube Applications

Stainless Steel Ornamental Rectangular Tube is popular for a wide range of uses, including:

- Automotive Decoration
- Bus and Rail Carriage Frame
- Construction and Architecture
- Display Stands
- Exhaust Pipe
- Furniture Frame
- Marine/ Seawater Applications
- Outdoor Framework, Braces, and Supports
- Signboard
- Structural Applications
- Turbo Drum Base
